Processed by: Patricia A. McEldowney, October 2010

Arrangement:

This collection is arranged into folders according to branches of the compiled family tree found in box 4, files 1-2. Each folder is labeled with a family member's name and consists of information on that person and his/her descendents, when applicable. Folders that are not labeled with a person's name consist of general family information and history. The last box in this collection is an alphabetical listing of all names included on the compiled family tree and the location of that name on it.

Biographical/Historical Note

This collection is the result of the efforts of Martha Yowler to collect her family's history throughout her lifetime. The earliest ancestors mentioned in her research are from Germany in

the year 1626. There is a considerable amount of information on ancestors who lived in Pennsylvania as well.

Scope and Content

The first three boxes in this collection primarily consist of folders divided according to name. The information in these folders is related to the ancestor and his/her direct descendents. The first two folders in box four are the results of combining the information found in the first three boxes as it is in these folders that a combined and large family tree can be found. The rest of box four and all of box five is a collection of family information including news clippings, wills, a family crest, and censuses.
