

**SC-260**      ODOT Structure File: Stewart Street Bridge

**(1 item)**

This collection contains an extensive study of the Stewart Street Bridge in Dayton, Ohio, completed by the Ohio Department of Transportation (ODOT) in July 2008. The text contains an extremely thorough compilation of written historical and descriptive data and a bibliography of sources. Also included are 21 negatives and photographs which document the textual history of this Dayton structure.
