Grant files-Awarded Research records and data
Research records and data produced in the course of a grant-funded project (federal or non-federal) are treated as intellectual property and provided all applicable protections. Following the completion of the project and publication of the project’s findings, if the principal investigator or the Office for Research and Sponsored programs deem the project results to have continuing research and/or historical value, they may request select material to be preserved in the University Archives or other appropriate repositories, if consistent with records retention requirements as otherwise defined in the granting agency’s agreement with WSU.

Note: Retention and access requirements—as well as exceptions—for federal grants outlined in Office of Management and Budget’s Circular No A-110, section 5.3.

The description of series DEMD10-02 and –03 is identical to the one appearing on the records retention schedule for the office of WSU’s Research and Sponsored Programs (RSP). When disposing of grant-related administrative and financial records, check for duplication with the RSP office.

Note: Longer term storage may include, but not be restricted to, archives, an institutional records storage center, and conversion to microfilm or other acceptable mass storage media (per Sec. 9.01 of the Ohio Revised Code).
