

The Library is more than books, magazines, newspapers, journals, databases, government documents, dvds, cds, records, etc (as if that isn't enough already!!!), we've also got you covered for your technology needs.

The items below are all available to be checked out at the Circulation Desk with your Wright1 Card.

But wait, there's more..... if you need to edit the audio, video or images you make with these, current WSU students can use specialized software available in the STAC and even get help from highly trained, experienced Tech Mentors.

HD Video Recorders

Record HD Quality Video and Audio to the internal digital storage. Transfer files and charge with the built-in USB plug.

Currently three different models are offered, (original) Flip, Sony Bloggie and Kodak PlayFull.

Cell Phone Chargers

Charge your cell phone by plugging it into a wall outlet or a USB port on a computer. Also can be used to transfer data from your phone to a computer.

Cables available for iPhone5 and later, iPhone 4 and earlier and MicroUSB (most Android phones).

Tripods (Tabletop or Full Size)

Flip, video and digital cameras from Circulation (or elsewhere) can attach to this to allow for a steady hands free shot.

2 Sizes: Small tabletop or full size.

Kensington Lock

Lock a device to a table or other immovable object to keep it safe. Compatible with most laptops and lots of other devices with a Kensington Lock Slot.

Video Camcorders

Record Video and Audio to the removable mini-tape or the internal storage, depending on the model.

If you need a mini-tape, circulation sells them.

Digital Cameras

Capture still images onto digital media and transfer with the USB cable or removing the SD Card.

Various models are offered, please ask if you would like something specific.

Digital Card Reader

Transfer data from various digital cards to any computer through a USB port.

Supports: CompactFlash Type I and II, SD, SDHC, SDXC, miniSD, miniSDHC, microSD, microSDHC, microSDXC, MMC, MMCmobile (DV RS-MMC, MMCplus, MMCmicro, RS-MMC, Microdrive, Memory Stick Micro, Memory Stick, Memory Stick PRO, Memory Stick Duo, Memory Stick PRO Duo.

Digital Audio Recorders

Record audio for an interview, presentation, performance, etc.

Two models available. Zoom H1 Handy Recorder records directly to included MicroSD card, which can be transferred to a computer through the built in USB port or a card reader. Olympus Note Corder records to internal memory and can only be transferred through an audio recording program on a computer.

Portable DVD Player

Play DVD movies on the built-in 9 inch screen. Provides power through the built in battery or plugged into a power outlet.

Headphone Splitter

Add a second headphone jack to allow two people to listen to the sound coming from any audio device with a regular headphone jack.

Power Strip

Expand the capacity of a power outlet or increase the distance away from the outlet you can be.

Laser Pointer Pen

Highlight a specific location or point on a presentation or poster for your audience to see.

Computer Microphone

Record and broadcast audio through a computer with a USB port. Works with most recording programs and online chat programs (Skype, etc.)

Slide Projector

Display slides (2x2 inch) onto a wall or projector screen. Comes with power cord and (corded) remote unit.

Cassette Player

Play cassette audio tapes. Comes with power adapter (plugs into wall outlet) and headphones.

Scientific Calculator

Portable handheld scientific calculator. Various models available, all with similar functions. Solar powered for completely portable use.
